

Overview

Setting up your **User Profile** is intended to make creating future requisitions much easier and more efficient as it will save you from manually having to type in information such as your Ship To Address, ChartField Information and Supervisor each time you create a requisition. You can set **defaults** for this information to automatically display in each cart as well as your favorite ChartField String combinations.

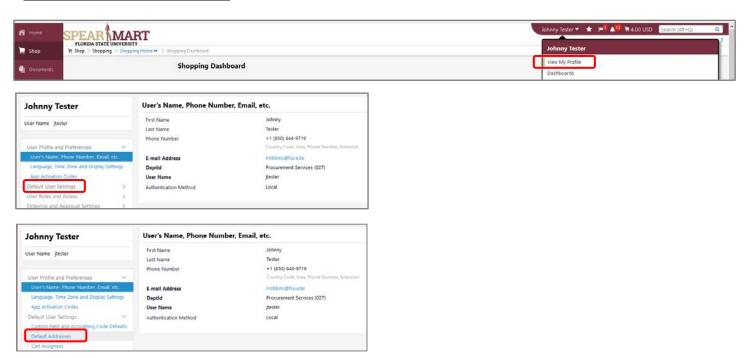

Access SpearMart by navigating to https://my.fsu.edu/ and logging in with your MyFSU username and password, and then click the SpearMart Icon under MyFSU Links:

This Job Aid will cover how to set up the following in your profile:

- Ship to Addresses
- Chart Fields
- Chart Field String Favorites
- Supervisor
- Notification Preferences

Enter the Nick Name of the building, for example, "Westcott". Click the **Search** button.

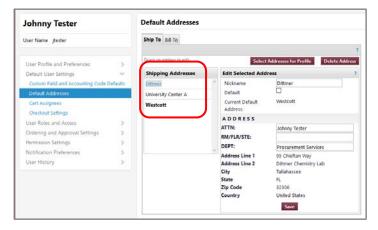

- If the address you seek is listed, click the option button beside the appropriate address.
- If you don't find your Ship To Address, try the following:
 - Search using your street name in the Address Text field, for example, "Copeland".
 - If you cannot find your Ship To address, E-mail <u>spearmart@fsu.edu</u> that you are having trouble locating your Ship To address and include the name of your building, your department and your college.

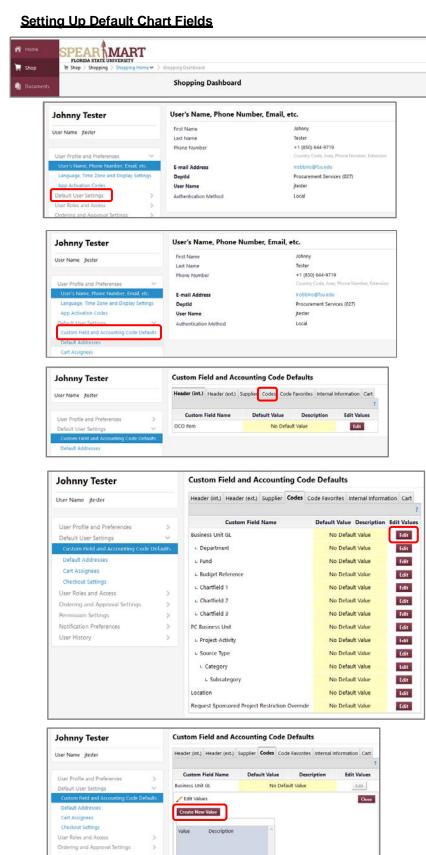

- Give your Ship-to address a nickname
- Check the box next to **Default** if you would like the system to auto populate the Ship To Address for each requisition
- Enter the room, floor, or suite number

- You can add multiple Ship-to addresses to your profile at your discretion following the steps above.
- If you selected the Default Checkbox for an address, then it will show in **Bold** under your Shipping Address list

Click the **Codes** tab to set up and save default Chart Field values. (NOTE: you will always have the option to override your default Chart Field values for each requisition you create).

Johnny Tester

* Custom Field Values marked with an asterisk are role-based values. Users can only modify the Default status of these Custom Field Values.

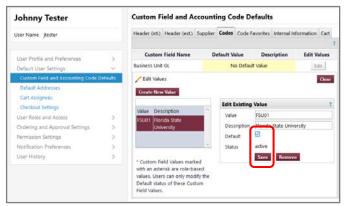

User History

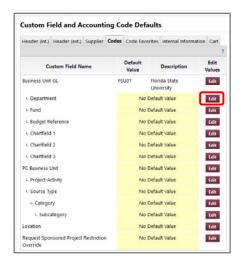

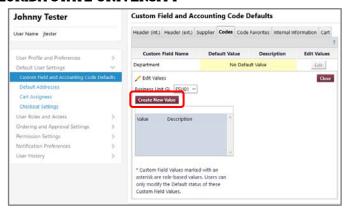

Click FSU01 or Florida State University

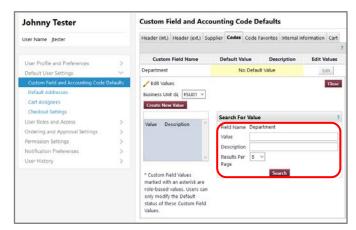

Select the checkbox next to **Default** and click **Save**

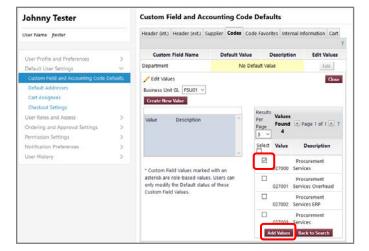

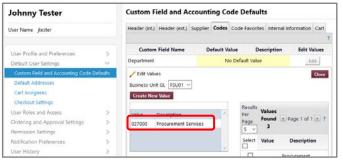

- If you know the Department number, enter it in the Value field and click Search
- If you would rather search by department name, enter it in the **Description** field and click Search

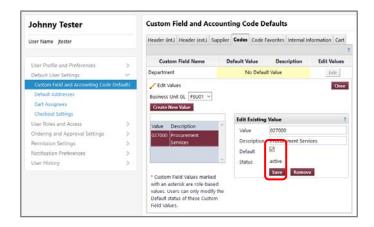

- Select the Checkbox next to your Department
- Click Add Values

Click your Department Number or Name

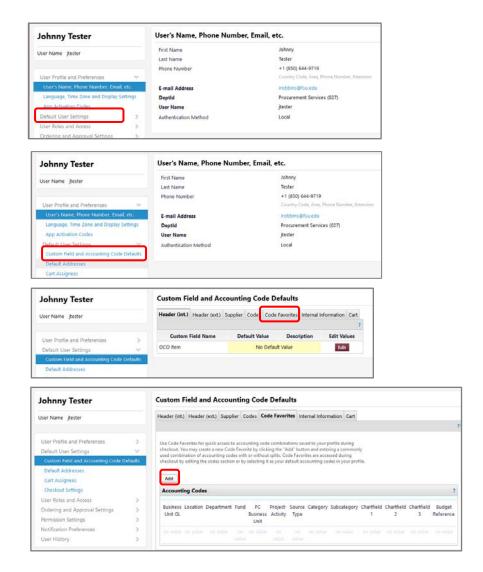

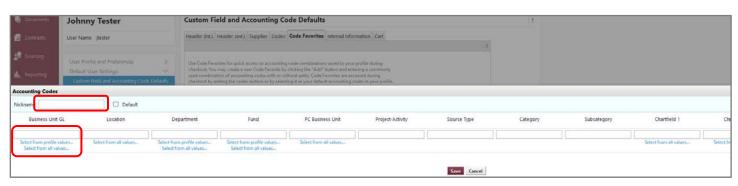

- Select the checkbox next to **Default** and click **Save**
- Click the Codes Tab
- Repeat the steps above to set your default values for your other Chart Field values

Setting Up Chart Field String Favorites

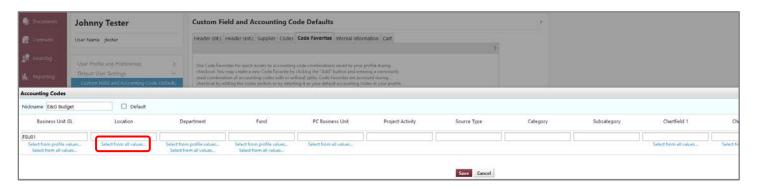

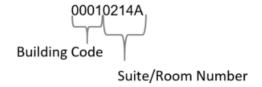

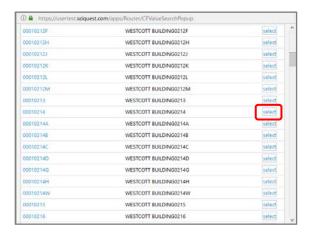

- Enter a **Nickname** field that will enable you to easily identify your Chart String for use later, for example, "E&G Budget" or "Grant ABC" etc.
- Enter the Business Unit GL. FSU01

- Every office/room on campus has a unique **Location.** Facilities maintains the master <u>Building List</u> which includes all active buildings on campus. **Locations** have the format shown above.
- You can enter a partial value in the Value field (i.e. "0223") and then click the Search button. This will bring up all Locations that start with 0223.
- You could also enter a phrase in the Description field (i.e. "Westcott") and then click the Search button. This will bring up all Locations that have the phrase "Westcott" in them.

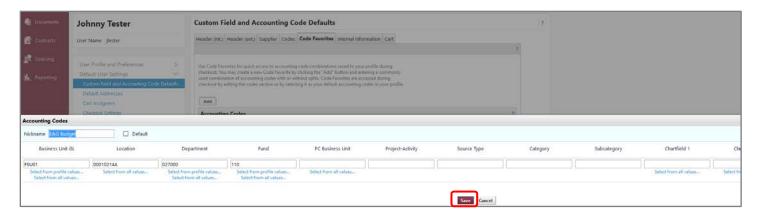

HELPFUL TIP

Entering your room number in the **Description** field may prove to be the quickest way to finding your **Location**.

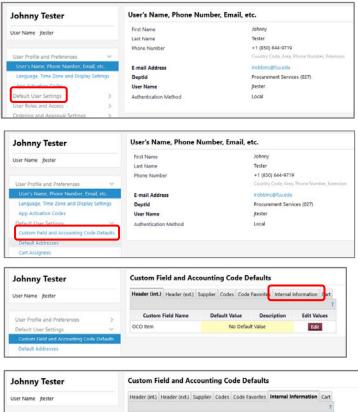

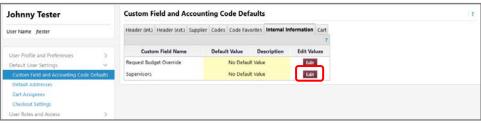

• Enter the remaining Chart Fields the same as above and click Save when complete.

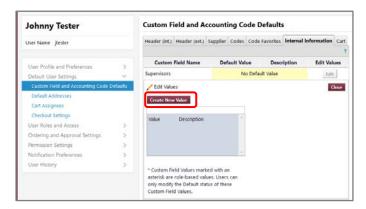

Setting Up Your Supervisor

 Enter your Supervisor's First and Last Name in the **Description** field. You could also just enter the Last Name.

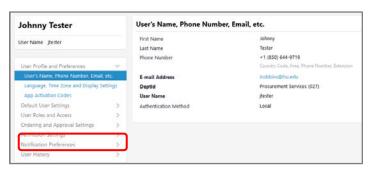

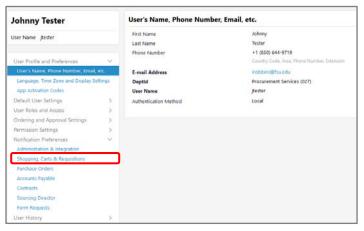

Setting Up Your Notification Preferences

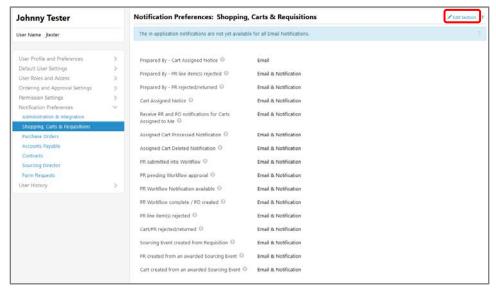

We caution you from making any changes to your notification preferences. We have configured the system so that you will be adequately informed on the progress of your requisitions, purchase orders etc. If you feel like you are receiving too many notifications, you can throttle them back by making adjustments within your profile.

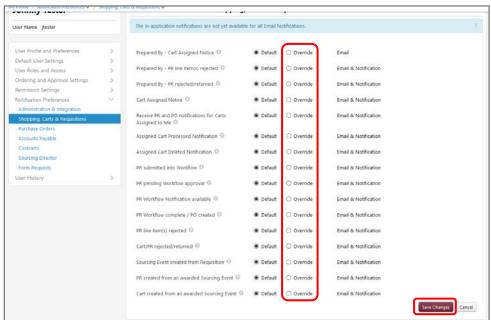

- Select the **Override** radio button for the notification you wish to select.
- Then select from the available dropdown action menu.
- Click Save Changes when complete
